

The green facade - Made from 100 % recycled plastics

Combination: vinyPlus Quattro, Turner Oak Toffee (centre) – vinyPlus Shadow, Sheffield Oak Alpine (sides)

## The future is 100% RECYCLED.

**vinyPlus Quattro** Wood texture foiled  Assembly advantage quadruple profile

vinyPlus Quattro facade profiles in a modern rhombus look with integrated shadow gap have a particularly wide cover area of 299 mm and are thus ideal for quick installation of large surfaces. They are installed either vertically or horizontally, quite charming in combination with our other vinyPlus products. The profiles are extremely durable, robust and virtually maintenance-free. Made from 100% recycled rigid PVC in an environmentally friendly process and coated with a UV-resistant structural film they have an extremely small carbon footprint in comparison with e.g. treated timber or metal alternatives.
