

# Certificate CO<sub>2</sub>-Reduction

## for the year 2023

Our certified production process guarantees environmentally friendly plastic recycling. The production of our recycling granulates causes 90% less **CO<sub>2</sub>** – emissions than the manufacturing of virgin PVC.

The company

**Vynylit Fassaden GmbH**  
**34123 Kassel**

made a significant contribution to the voluntary self-commitment of the European PVC industry.

Due to the purchase volume of the company **Vynylit**, a saving of up to

**1813 t CO<sub>2e</sub>**

compared to the processing of virgin PVC could be achieved in **2023**.

We are grateful for this contribution to the protection of environmental.

**VEKA Umwelttechnik GmbH**  
Im Straßfeld 1  
99820 Behringen
